

Notable Keys

Super key

The Super key is the OS key on your keyboard.

- On recent System76 products, it's the Pop key (.
- On older System76 products, it's the Ubuntu key (.
- On generic third-party products, it may be labeled with a Windows logo.
- On Mac accessories, it may be labeled `command`.

In Pop!_OS, the Super key handles the majority of OS and window actions. This key is represented by  in the lists below.

Direction keys

Directional actions can use either the standard arrow keys or their Vim equivalents:
